Micro-Weld Electric Resistance Welders

Offering the world a better weld
for over 80 years

Model ADX-1 Steel Rod Butt Welder

Specifications

Stock size range (steel and stainless steel)	.250" to 1.00" diameter 6.35mm to 25.40mm
Standard voltages available	230, 400, 460, 600v
Cycle	60 hertz (50 hertz optional)
Line demand (maximum current draw)	390 amps @230 volts 225 amps @400 volts 196 amps @ 460 volts 156 amps @600 volts
Single phase transformer	90 KVA
Heat selection switch	12 point
Upset method	Pneumatic
Clamping method	Pneumatic
Air requirements	80-90 psi
Welding die height	43" (109.22cm)
Mounting truck type	4 heavy-duty casters

Dimensions & Weights

Width across the front	36" (91.44cm)
Depth to the back	30" (76.2cm)
Overall height	54" (137.16cm)
Weight	1,100 lbs. (498.85kg)

Standard Features

- Super heavy-duty straight slide welding headpiece
- Welding and annealing jaws in the same plane
- Low voltage safety circuits
- Super heavy-duty construction
- Heavy-duty clamping and upset mechanism

Optional Features

- Machinist vise (adds to the width)

Unsurpassed quality
construction

Excellent weld with
consistency

Easy to operate
